

HANBYOUL KIM

Multidisciplinary Designer — Brand, Interface, and Generative AI

Surrey, BC • hanbyoul.kim91@gmail.com • +1 (604) 771-1235

Portfolio: hannnnnnnnnnn.github.io/portfolio • linkedin.com/in/hanbyoul-kim

SUMMARY

Multidisciplinary designer with 5+ years across brand identity, game interface design, e-commerce UX, and generative AI production. Work spans a \$5.8M campaign design system, a full event identity across print and environmental touchpoints, AI-generated commercial video campaigns, and front-end implementation of Shopify storefronts. Comfortable judging design quality outside my primary discipline — from packaging dielines to game HUDs to AI-generated imagery — and articulating precisely why something works or doesn't.

PROFESSIONAL EXPERIENCE

ATACZ — Vancouver, BC Jan 2026 – Present

UX/UI Designer & Shopify Developer

- Own end-to-end UX design and front-end development for two Shopify Plus storefronts (US and Canada) for a sustainable upcycling bag brand.
- Led a product detail page redesign from user research through Liquid/CSS/JS implementation, validated post-launch: +33% mobile CTR, +23% conversion rate, +51% scroll depth.
- Designed and shipped a product listing page revamp, adding a passive brand layer and simplified product cards; validated through a 43-day A/B test.
- Built custom theme components in Liquid, CSS, and JavaScript, including a metafield-driven sustainability badge system.

KITS Eyecare — Vancouver, BC Apr 2024 – Dec 2025

Graphic Designer

- Led visual direction for the Black Friday / Cyber Monday 2025 campaign — the company's highest-revenue week at \$5.8M and 16,900 pairs ordered — building a modular design system that held consistent across web banners, email, and paid social.
- Designed the full visual identity for KITS Investor Day, spanning event logo system, a 50+ page presentation deck translating financial data into visual narrative, attendee credentials, and large-format environmental signage.
- Built and ran an AI-assisted content pipeline for PDP imagery and video, producing a virtual brand ambassador for social video and a color contact lens campaign — establishing consistency controls and quality standards for generative output used in live advertising.
- Produced display advertising and social media graphics across acquisition channels.
- Contributed UX/UI work on customer-facing digital experiences alongside core graphic design responsibilities.

Vancouver Premium Packaging — Burnaby, BC Aug 2022 – Apr 2024

Graphic Designer

- Conducted user research, wireframing, and prototyping for a full website renewal, increasing user engagement and sales inquiries by 30%.
- Led branding and packaging design initiatives, creating logos, typography, artwork, and 3D mockups for product launches.
- Produced digital campaigns and print collateral supporting sales and promotional efforts.

Sprung Studios — Vancouver, BC May 2022 – Jul 2022

Junior UX/UI Designer

- Conducted user research and usability testing on game interfaces across multiple titles, evaluating HUD legibility, menu structure, and control clarity.
- Produced wireframes and prototypes for interface revisions, working within existing art direction and platform constraints.

Pacific Dream — Vancouver, BC Jul 2021 – Jan 2022

UX/UI Designer

- Spearheaded branding and packaging design for multiple branch launches, ensuring a cohesive visual identity.
- Crafted user personas, wireframes, and interactive prototypes for enterprise-level applications.

SKILLS

Design & Visual: Figma, Photoshop, Illustrator, After Effects; brand identity, layout, typography, iconography, packaging, concept art

Generative AI: Nano Banana, Dreamina, Flair AI, Firefly, Veo 3.1, Kling 2.1, Topaz; persona consistency, product accuracy, image-to-video workflows

Interface & UX: user research, wireframing, prototyping, usability testing, design systems and component libraries

Front-End: Liquid, HTML, CSS, JavaScript; Shopify theme architecture, Git Analytics: ShopifyQL, Microsoft Clarity, funnel and attribution analysis

EDUCATION

Emily Carr University of Art + Design — Vancouver, BC 2017 – 2021

Bachelor of Design — Major in Interaction Design; Minor in 3D Design

Vancouver Film School — Vancouver, BC 2015 – 2016

Diploma — Animation and Concept Art

CERTIFICATIONS

- Foundations of UX Design — Coursera (Google UX Design Certificate)
- Product Lifecycle Management — Great Learning

COMMUNITY & LEADERSHIP

KDD (Network of Korean Developers & Designers) — Vancouver, BC 2022 – 2025

Co-organizer

- Helped grow KDD into Vancouver's largest Korean developer and designer community with 900+ members, organizing monthly meetups with 50+ regular attendees.
- Led branding and merchandise design (logos, stickers, apparel) and organized tech talks, resume workshops, and career panels.
- Co-hosted a collaborative event with the Korean Council in July 2023, attracting 200+ attendees and coverage from three press outlets.
- Mentored community members on resume reviews, LinkedIn optimization, and career development.
